

LEXINGTON  
CARDIOLOGY  
CONSULTANTS

Dear Patient,

Thank you for choosing our practice for your cardiology care. We ask your assistance in obtaining your medical records in order to expedite your visit with the physician and to insure we have documentation of your previous diagnostic tests and procedures. This may eliminate the need to repeat diagnostic tests.

The medical records needed to complete your cardiology consultation and assist the physician in determining a treatment plan are:

- HISTORY AND PHYSICAL EXAM FROM YOUR REFERRING PHYSICIAN
- OFFICE NOTES FROM YOUR REFERRING PHYSICIAN
- EKG's
- CHEST X-RAY REPORT (ACTUAL FILMS ARE HELPFUL)
- ECHOCARDIOGRAM (ULTRASOUND OF THE HEART)
- BLOOD WORK (DONE IN THE LAST 3 TO 6 MONTHS)
- HOLTER MONITOR REPORT (WITH EKG STRIPS SHOWING THE ABNORMALITY)
- NUCLEAR STUDY
- STRESS TEST REPORT
- CAROTID ULTRASOUND REPORT
- HEART CATH REPORT
- CABG REPORT (CORONARY BYPASS)
- ANY OTHER TEST FOR WHICH YOU ARE REFERRED TO THE CARDIOLOGIST

If you are uncertain as to what tests you have had performed, please ask your referring physician. Your referring physician can fax these records to our Medical Records Department at (859) 276-7659 for your convenience or you can bring them with you.

We look forward to having you as a patient and appreciate your cooperation. Please feel free to contact us at (859) 277-5887 if you have any further questions.

Thank You,  
Lexington Cardiology Consultants
